Course Overview

Creating a facility environment that acknowledges and is aware of the impact of trauma, and the likelihood of a trauma history in behavioral health consumers coming into the CMHSP for services. The core values of trauma-informed services are also included.

Included in this module are the State of Michigan Resources for review after completing this module.

Upon completion of this module, you will be able to describe the five core values of Trauma-Informed Care. You will be able to describe the changes needed in your understanding and practice to create a culture shift to a Trauma-Informed system of care. And you will be able to describe the difference between trauma specific services and a trauma-informed care environment.

This course will be updated in the near future to address current accessibility standards. If you are unable to access the content in this section, please contact the imp support team for assistance.
