GETTING TO KNOW THE EXPERTCARE OFFICE STAFF

We thought it would be nice to introduce ourselves and tell you a little bit about each of our office staff. Each month we will feature a new interview with someone from our office.

MEET BLAKE DAGENAIS

ECare: If you didn't have to sleep, what would you do with the extra time?

Blake: This would be big for me because I've always been someone who sleeps 8 hours a night. I would use the time to read and learn new things that I sometimes put off because they are lower priorities during the normal waking hours!

ECare: What are three words that best describe you?

Blake: Enterprising, Strategic and Inquisitive

ECare: What is on your bucket list?

Blake: To travel to New Zealand and explore all the settings of Lord of the Rings (favorite movies). Hoping to get there in the next few years.

ECare: When you are working towards a goal, what keeps you motivated?

Blake: The growth along the way. When I'm working towards something and can see progress it excites me.

ECare: What do you wish you knew more about?

Blake: I am really interested in quantum physics and wish that I knew more of the hard math / foundational concepts behind it.

ECare: What are some things that help you have a great day?

Blake: When I have the opportunity to have a conversation with someone about something we are both interested in. Also, when I get to eat one of my favorite meals (pizza, meatloaf, all the classics really).

ECare: What do you like most about ExpertCare?

Blake: What I like most about ExpertCare is the people! Everyone is kind and has helped me to feel like part of the team even though we are operating in a mostly remote environment! People go out of their way to help each other.

November Caregiver of the
Month was Amna Malik

For the past 5 years, Amna has been providing compassionate care to the individuals she works with through ExpertCare. The pandemic has created challenges for many of our consumer families and Caregivers, but Amna has tried to make the best out of each situation by providing telehealth services for one of her consumers.

During a recent call with ExpertCare, Amna's consumer expressed how much it means to her, having Amna checking on her regularly by phone to make sure she's completing her goals, assists her with recipes for meals, and checks in on her garden. Even though they can't see each other face-to-face at this time, Amna is still finding a way to make a positive impact on her consumer's life.

ExpertCare truly appreciates everything she does and is very proud to have her represent ExpertCare in the field. Thank you for your hard work and dedication in changing the lives of others.

Thank you for demonstrating
